

Powerful Plant in a Jar Experiment

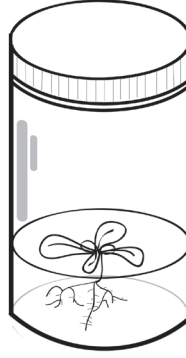

Writing up your Experiment

You will need to decide exactly how you intend to run your experiment. To ensure you are able to let other scientists know how you set it up for future reference, write down the method you will use to conduct your experiment.

Your Experiment Method

Plant A (Control)

Plant B (Altered Conditions)

Your Results

Plant	Day	Measurements (mm)	Observations
A	1		
B			
A	2		
B			
A	3		
B			
A	4
